HS-1508PC OVERVIEW

The HELIOS HS-1508PC revolutionizes rackmount power with non-sacrificial surge protection – no more degraded performance or sudden failures after a spike. This 1U powerhouse boasts 8 switched black outlets; 6 standard and 2 high-current outlet options for demanding gear. 70dB EMI/RFI noise filtering ensures pristine audio and video, while a display and intuitive LED indicators keep you informed. Plus, removable rack ears, rubber feet, and a right-angle power cord offer maximum flexibility.

HS-1508PC FEATURES

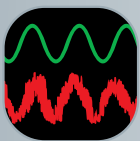

Full Color Retail Packaging with Metallic Silver Ink and Gloss Coating on Products

FRONT LIGHTING DIMMER

The light levels of your environment are important! You can take control of how bright or dim the front LED display is with a simple tap of the dimmer button, cycle through 4 levels from 100% to 0%.

EMI/RFI NOISE FILTRATION

EMI/RFI noise from the power grid could be introduced into your system creating a poor audio experience. This unit provides 70dB of filtration ensuring noise is not passed onto your audio devices.

VERSATILE MOUNTING OPTIONS

Using the included mounting brackets, this unit can be mounted to the front or back of a standard rack, or wall/surface mounted.

NON-SACRIFICIAL SURGE PROTECTION

Cutting edge optimized surge protection technology outlasts common MOV surge protection with over 60 times longer life expectancy and up to 33% faster surge clamping time than traditional MOV based surge protectors.
