HS-1912PC OVERVIEW

Silence power worries in your studio, rack, or home theater with the HELIOS HS-1912PC. Ditch flimsy MOV surge protectors for long-lasting, non-sacrificial protection that shields your gear from even the nastiest voltage spikes. 12 black outlets - 10 switched for control, 2 high-current for hungry amps - plus 2 rear USB ports give you ample power with flexible control. Crystal-clear 80dB EMI/RFI noise filtering ensures pristine audio and video, while display and clear LED indicators keep you informed. Conquer power anxieties and elevate your performance - choose the HELIOS HS-1912PC.

HS-1912PC FEATURES

Full Color Retail Packaging with Metallic Silver Ink and Gloss Coating on Products

FRONT LIGHTING DIMMER

The light levels of your environment are important! You can take control of how bright or dim the front LED display is with a simple tap of the dimmer button, cycle through 4 levels from 100% to 0%.

EMI/RFI NOISE FILTRATION

EMI/RFI noise from the power grid could be introduced into your system creating a poor audio experience. This unit provides 80dB of filtration ensuring noise is not passed onto your audio devices.

VERSATILE MOUNTING OPTIONS

Using the included mounting brackets, this unit can be mounted to the front or back of a standard rack, or wall/surface mounted.

NON-SACRIFICIAL SURGE PROTECTION

Cutting edge optimized surge protection technology outlasts common MOV surge protection with over 60 times longer life expectancy and up to 33% faster surge clamping time than traditional MOV based surge protectors.

- ✓ 12 Black Outlets with Flexible Control: 10 Switched, 2 High-Current
