					C--Fixed arm 2pcs
g--M6/M5 washer 4pcs	h--M8 washer 4pcs	i--M8 spacer 4pcs	j--M6 wrench 1pcs	k--14 wrench 1pcs	

Safety Directions:

Step 1: Read and understand all the directions, handle and use according to the directions strictly.

Step 2: Attach the wall plate (A) on the wall

Wood Stud Mounting: The Wall Plate must be mounted to the wood stud which the width should be at least 50CM more than the widest point of the Wall Plate to ensure the wood stud is strong enough to hold the weight of the TV and wall mount itself. Suggest to ensure the holes location for the Wall Plate with lineation. Pre-drill a 6.4MM deep hole in each marked location. Finally, Attach the Wall Plate to the wall using wood screws and washers. Make sure the Wall Plate is oriented and against the wall.

Concrete Wall Mounting: Choose a solid wall area (avoid the hollow wall or the screws in the joint of the bricks) then insert the plastic screw covers. Attach the Wall Plate to the wall as the same instructions as it for wood stud mounting above.

▲ **Note:** Be sure to choose a high quality wall area and enough strong to hold the weight of the TV and wall mount itself perennially when assembling. The assembly place should be far away from the water and sunshine.

Figure 3

Step 3: Attach two brackets (B) to TV back.

Figure 5

Figure 6

- ⚠ Note:** 1. Please use the corresponding screw & washer for the holes of the TV back, assembling with incorrect screw & washer will damage the holes on the TV back, uneven assembly will cause slanted TV screen.
2. Professional knowledge required to assemble the flat panel TV and the wall mount and need at least 2 people to finish this mounting procedure. Do not attempt to assemble this wall mount independently to avoid incorrect assembly or any possible injury this may cause.

Step 4: Hang pre-assembled TV unit on the wall plate and tighten the safety screws.

Figure 7

▲ Note: This step must require 2 or more professional to finish.

Step 5: Turn the screws at the top of brackets to make slight level adjustment.

Figure 8

Step 6: Loosen the screws on two sides to tilt up or down.

▲ Note: If you would like to adjust its angle, pls remove the side screws as the below drawing shown.
