XL FULL MOTION TV MOUNT

SALES 386-255-0234

65" - 110"
TV SIZE RANGE

220 lbs
MAX CAPACITY

20.1"
MAX EXTENSION

The Helios FMXL856 is a premier engineering solution designed specifically for massive, extra-large format flat-panel displays. Built with heavy-gauge steel structural components, this professional full-motion mount delivers smooth articulating extension, robust safety, and unparalleled flexibility for standard and commercial integrations.

Features:

- **Broad Display Compatibility:** Fits 65" to 110" TVs. Always check VESA pattern and weight of the specific TV model to ensure accurate engineering compliance.
- **Extensive Swivel Range:** Provides up to 360° horizontal rotation, allowing optimal multi-angle positioning across wide floorplans.
- **Advanced Precision Tilt:** Offers +5° to -15° vertical adjustment to drastically minimize ambient glare and optimize overhead line-of-sight.
- **Versatile Wall Dynamics:** Sits incredibly slim at a mere 3.15" (80mm) when fully collapsed, yet seamlessly extends outward up to 20" (511mm).

Specifications:

- Wall Plate Total Width 943mm (37.12")
- Wall Plate Outer Height 348mm (13.70")
- Internal Mechanism Height 332mm (13.07")
- Minimum Wall Profile Depth 80mm (3.15")
- Maximum Extended Distance 511mm (20.1")
- Universal bracket design natively covers configurations up to 850 x 600 mm:

200 x 200	200 x 300	300 x 200
300 x 300	400 x 200	400 x 300
400 x 400	600 x 400	850 x 600
