

XL FIXED TV MOUNT

HELIOS®

LPXL96 XL FIXED TV MOUNT

 **SALES** 386-255-0234

65" - 110"
TV SIZE RANGE

The Helios LPXL96 is an ultra-low-profile, high-capacity engineering solution purpose-built for massive, extra-large format flat-panel displays. Fabricated from premium, heavy-gauge structural steel components, this fixed mount delivers rock-solid structural stabilization, elite load capacities, and a perfectly flush architectural layout for premium commercial installations and streamlined residential media environments.

264 lbs
MAX CAPACITY

Features:

- **Massive Screen Coverage:** Designed explicitly to accommodate 65" to 110" TVs. Please ensure VESA pattern validation and specific hardware weights are evaluated to confirm accurate engineering compliance.
- **Ultra-Low Profile Depth:** Positions the heavy-format display a mere 1.81" (46mm) from the wall surface for a beautifully clean, near-recessed presentation.
- **Rugged Build Quality:** High-tensile rigid structural steel frame easily handles extreme commercial payloads without bending or sagging over extended durations.
- **Streamlined Mounting Footprint:** Low vertical frame height allows for effortless concealment behind standard commercial displays.

1.81"
DEPTH

Specifications:

- Wall Plate Total Width 960mm (37.79")
- Wall Plate Frame Height 261mm (10.27")
- Vertical Mounting Brackets Length 650 mm (25.59")
- Minimum Wall Profile Depth 46 mm (1.81")
- Maximum Weight Capacity 264 lbs (120 kg)
- Universal bracket design natively covers configurations up to 900 x 600 mm:

100 x 100	200 x 200	300 x 200
300 x 300	400 x 200	400 x 300
400 x 400	600 x 400	900 x 600
