PRODUCT OVERVIEW

Everything in the Velox line is engineered and designed for long-term use in high-end installations for today's custom integrator or home technology professional. High-quality construction and engineering provide true hi-fi audio performance in the Velox line of audio cables. This product line consists of premium balanced XLR cables (EHV-XLR), subwoofer cables (EHV-SUB), stereo RCAs (EHV-A), and optical audio cables (EHV-T). These audio cables deliver true high-fidelity performance for today's discriminating audiophile and are built with high-quality head shells and woven flexible jackets for extra durability.
