IN-WALL POWER OUTLET RELOCATING KIT

The HELIOS[®] Power Relocating Kit allows you to extend your existing power outlet vertically to your wall-mounted TV's height. The power extension runs neatly behind the wall along with openings for other cables like HDMI[®], Coax and Audio cables - hiding the mess hanging behind your TV.

DIY friendly and easy to install with the included parts and tools, no wiring or electrician needed. This kit is not just for TV's - It can be used for any application where a power outlet is needed vertically higher on a wall.

INCLUDED IN THE KIT:

- ✓ 3" hole saw blade with T-handle (can be used with power drills)
- ✓ Wire snake for pulling cables in the wall
- ✓ (2) Wall housings with trim fascia's
- ✓ (1) male and (1) female cable adapter
- ✓ 9' power cable for in-wall use
- ✓ 6' power cable
- ✓ (4) Small screws
